

Sustainable Living Tips

Multi-Generational Households

Whether you're making room for your parents or welcoming home a college graduate, home remodeling is a sensible investment in today's economy. Be sure your home update features comfortable, practical, universal and energy-saving improvements.

Add a second entrance creating privacy. It also makes it easier to turn part of your home into a rental unit.

Replace single-paned windows with energy-efficient wood, vinyl or fiberglass windows.

Swap out the old fridge with an Energy Star. You'll see the financial benefits immediately on your energy bill.
