

2016 Pricing Schedule

	Price	Xcel Rebate—60% *	Customer Cost— 40%
Standard Audit	\$225	\$100	\$125
Standard Audit with Blower Door	\$300	\$160	\$140
Infrared Audit	\$360	\$200	\$160

Standard Audit:

Get a comprehensive whole house inspection:

- Perform a comprehensive inspection of your home’s exterior, such as windows and doors
- Analyze insulation levels throughout the home
- Examine age, efficiency, and general condition of your mechanical systems
- Perform a carbon monoxide test
- Perform a basic analysis of your utility bills

Standard Audit with Blower Door:

Includes everything with the Standard Audit, plus:

- Use the blower door diagnostic tool to determine how much air your home loses each hour, through various air leaks. This air needs to be reheated or re-cooled, increasing your energy bills.

Infrared Audit:

Includes everything with the Blower Door Audit, plus:

- Infrared images provide you with a better idea of what’s happening behind your drywall and areas that can’t be seen.
- Thermo images of the walls and ceilings.
- View of temperature differences to see where insulation is present, missing or not working effectively.
- Offer more tailored solutions to address air leaks, the elimination of ice dams and reduction of overall conditioned air loss and energy consumption.

*** Certain restrictions apply if you have had an Xcel Energy subsidized audit within the last 2 years**
